## Crafted by Hand. Guided by Vision. Defined by Detail

Retroger Furniture ART is a workshop where industrial heritage, automotive history, and contemporary craftsmanship meet. For more than a decade, we have created bespoke furniture pieces that carry the soul of classic machines and the authenticity of true, handmade work.

Every project – whether an oil barrel design, a car-inspired piece, or a creation made for a private collection– is shaped with precision, passion, and an uncompromising devotion to quality.

Our creations live in homes, collections, and companies around the world, each one built to last and made to be remembered.

## About the founder - Zoltan Kozma Craftsman. Designer. Builder of Stories.

I was born in Hungary in 1979, and from a young age I discovered a fascination for creating things with my hands – not simply assembling, but understanding, shaping, and refining.

At eighteen, while most people were just beginning to dream of their first car, I built mine: a lightweight roadster I named Hannibal. That project became the cornerstone of my creative path, teaching me the discipline of engineering and the joy of bringing an idea to life without compromise.

In the years that followed, I designed and produced a range of custom vehicles, from roadsters to unique transport trailers, and later embarked on a 17,000-kilometer expedition retracing the journey of General Hannibal – driving one of my own creations across two continents.

My work eventually led me to the United States, where I collaborated with respected custom car manufacturers and deepened my experience in fabrication and design.

In 2012, life took me to Germany, where a new chapter began: transforming my knowledge of automotive construction into handcrafted furniture. What started with a single idea became a signature style, blending industrial heritage with refined craftsmanship. Today, every Retroger piece is created with the same philosophy that guided my first roadster: build with integrity, refine with passion, and let every creation tell a story of its own.

## Oil Barrel Furniture Industrial Heritage, Reimagined

Our oil barrel furniture collection is one of the defining elements of Retroger Furniture ART.

Each piece begins with a reinforced steel drum, crafted exclusively for our workshop, and is transformed through precise fabrication and meticulous hand-finishing. Over the past decade, we have created thousands of these pieces for private clients, collectors, and international brands.

Every item is made in Germany, built for longevity, and personally inspected by our founder, Zoltan Kozma.

This commitment to authenticity and craft has shaped long-standing collaborations with partners such as

Volkswagen, Porsche, Gulf, ÖMV, Red Bull, and Mercedes-Benz.

Alongside our established designs, we also offer custom oil barrel creations, tailored to individual preferences in color, finish,

or theme. Elegantly industrial, durable, and unmistakably handmade – each piece reflects the character of its origin and the signature of its maker.

## Automotive Furniture

### Where Design Meets Automotive Soul

Our automotive furniture collection is born from a deep appreciation for legendary cars and the stories they carry. Each piece is crafted either from genuine classic car elements or from our own composite-bodied forms, complemented with original trims, lights, and badges. This approach allows us to create furniture that is not only functional, but also emotionally resonant.

One of our most celebrated works is the officially licensed Volkswagen T1 "Bulli" Counter, produced using the original T1 mould. Every automotive piece is individually handcrafted and personally approved by Zoltan Kozma.

In addition to our signature designs, we also welcome bespoke automotive projects, whether inspired by a client's favorite model, a family vehicle, or a personal vision.

These creations are more than furniture – they are tributes to iconic machines, shaped into lasting works of art.

## Individual / Custom Furniture Unique Creations Made to Order

Beyond our established collections, we design and build a wide range of custom furniture pieces for private clients and themed interiors. With more than 25 years of experience in automotive and furniture design, we are able to bring nearly any idea to life – from playful characters to sculptural, one-of-a-kind installations.

Each custom project begins with a vision and evolves through careful design, craftsmanship, and personal attention to detail. Whether it is a distinctive themed piece or a refined, bespoke creation, every work reflects the same dedication to quality and imagination that defines Retroger Furniture ART.

## Volkswagen Collection – BRISA Partnership A Collaboration Built on Trust and Craftsmanship

For more than nine years, our workshop has been the official furniture manufacturing partner of the Volkswagen Collection – BRISA. This collaboration has resulted in some of our most recognised creations, including the full-size Volkswagen T1 “Bulli” Bar, produced with authentic components and true-to-original proportions. We also design and build the VW T1 Writing Desk, as well as a complete range of oil barrel furniture inspired by both the classic Bulli aesthetic and the modern GTI design. Each piece is crafted with the same precision, durability, and attention to detail that define all Retroger creations. This long-standing partnership reflects a shared commitment to quality and timeless design – values that continue to guide every item made for the Volkswagen Collection.
